Datum 14.07.2017  
Betreff Approval for Emission testing of Materials from Opel/Vauxhall/GM suppliers

According to the annual evaluation by a representative of the Global GM Vehicle Interior Air Quality team we approve

**Analytik Service Obernburg GmbH**  
**Industrie Center Obernburg**  
**D-63784 Obernburg**  
**Germany**  
**Tel: +49 (0) 6022 81-26 74**  
**Fax: +49 (0) 6022 81-2896**  
**Contact Person: Alexander Grosch**

as a suitable test facility for testing materials for our suppliers according to

- **GMW 3205** Test Method for Determining the Resistance to Odor Propagation of Int. Materials
- **GMW 3235** Fogging Characteristics of Trim Materials
- **GMW 8081** Static Headspace GC-MS for Interior Materials
- **GMW 15634** Determination of Volatile and Semi-Volatile Organic Compounds from Vehicle Interior Materials
- **GMW 15635** Determination of Aldehyde and Ketone Emission from Interior Materials (HPLC)

The following Lab Evaluation rate has been achieved: 1.2

This confirmation has a validity of two years starting from the date of this approval.

  
Dr. Ralf Langendorf

(Department Head Organic Materials Lab)

  
Dr. Benedikte Roberz

(TLE Vehicle Interior Emissions)
